Business Activity

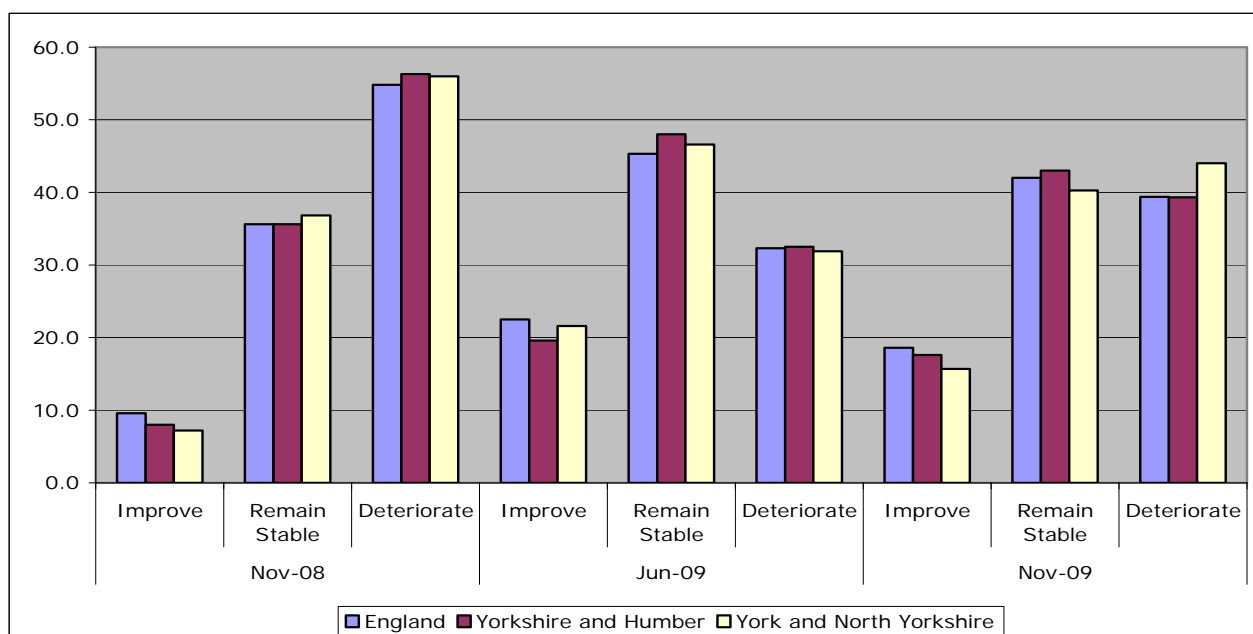

Business Confidence

The National Business Survey is a large scale research project conducted by Ipsos Mori on behalf of the RDA Network and Invest Northern Ireland. It explores perceptions of businesses across England and Northern Ireland, on current and recent business conditions as well as looking forward to potential issues and views on projected change over the coming months. The survey asks a series of questions on business confidence, a number of which are presented here.

Over the next 12 months do you expect the business climate in which your business operates to generally improve, remain stable, or deteriorate?

	Nov-08			Jun-09			Nov-09		
	Improve	Remain Stable	Deteriorate	Improve	Remain Stable	Deteriorate	Improve	Remain Stable	Deteriorate
England	9.6	35.6	54.8	22.5	45.3	32.3	18.6%	42.0%	39.4%

N.B. The National Business Survey data is a sample and subject to some survey error. Sample sizes are smaller at more local levels therefore the confidence intervals are higher. Sample size can vary over the different time periods.

New Businesses

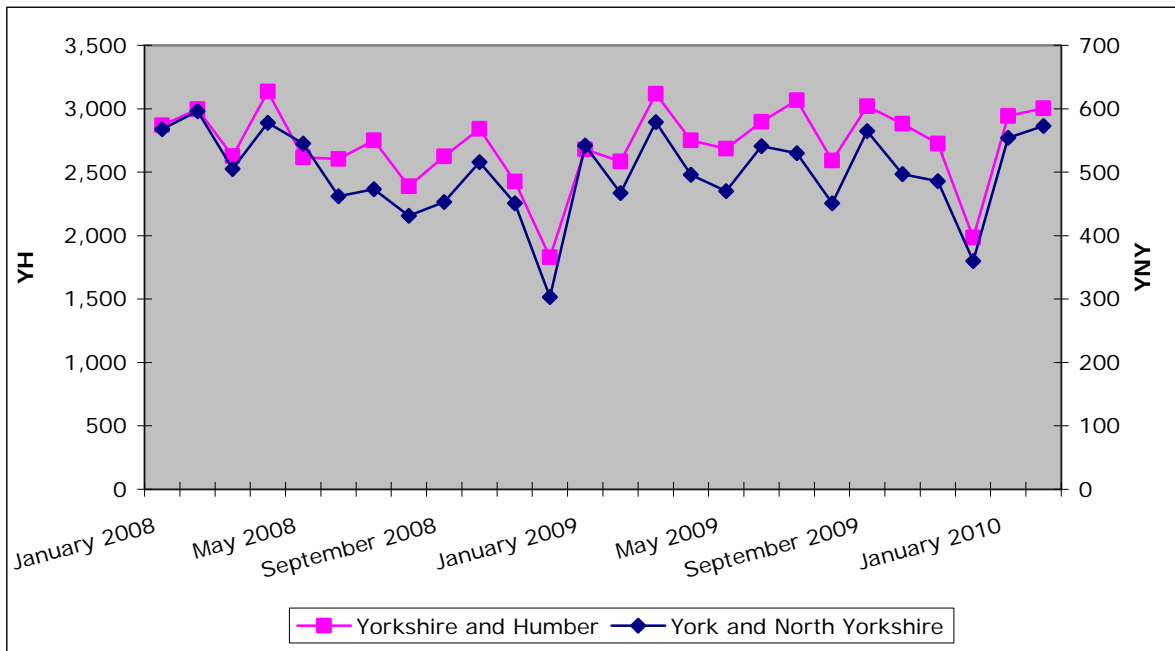

Information from the BankSearch Start up Interactive Database (IADB) provides a proxy to the number of new businesses being created in the sub region. The database provides information from Barclays, Co-Operative Bank, HSBC, Lloyds Banking Group, Royal Bank of Scotland and Santander. A 'Start-up' reflects the opening of a first current account from a small business banking product range. They represent businesses new to banking or those previously operated through a personal account. The data exclude businesses operating through personal accounts, those without banking relationships or those banking with other institutions. A small business is defined as having, or expected to have, annual debit turnover (i.e. outward payments from their accounts) of up to £1m per annum.

Mortgage and Landlord Possession Claims/Orders

The following data indicates the number of claims/orders that have been issued at County Court level for possession of properties either under mortgage or landlord possession.

N.B. Important note - Introduction of Mortgage Pre-Action Protocol (MPAP) on 19 November 2008.

A new mortgage pre action protocol (MPAP), was introduced for possession claims in the County Courts with effect from 19 November 2008.

Evidence from administrative records from October to December 2008 suggests that this date coincided with a fall of around 50% in the daily and weekly numbers of new mortgage repossession claims being issued in the courts. It therefore seems highly likely that the launch of the MPAP has led to a marked fall in the number of new claims being issued during the latter part of the period covered by this bulletin. However, given the apparent cause, users should exercise caution in drawing broader inferences from the fall in mortgage possession claims issued in Q4 2008.

Mortgage possession orders are typically made around 8 weeks after the corresponding claims are issued. For this reason, the impact of the MPAP is expected to occur during the early months of 2009. At this early stage is not clear to what extent the launch of the MPAP has led to a permanent fall in the numbers of new mortgage possession claims being issued, as opposed to some merely being postponed. This will become clearer as statistics for 2009 are published.
